BMS | Demir Çelik İnşaat Sanayi ve Tic. Ltd. Şti.

GALVANIZED WIRE

Strong Protection, Long Service Life

With its corrosion-resistant structure, high strength, and long service life, it provides a reliable solution for a wide range of industrial and structural applications.

- Corrosion Resistant
- High Strength
- Long-Lasting
- Reliable Performance

BMS | Demir Çelik İnşaat Sanayi ve Tic. Ltd. Şti.

BLACK ANNEALED WIRE

Flexible Structure, Strong Performance

With its high flexibility, durable structure and reliable performance, it provides an effective solution for tying, manufacturing and a wide range of industrial applications.

- Flexible Structure
- High Strength
- Easy to Process
- Reliable Performance

Contact Information

BMS | Demir Çelik İnşaat Sanayi ve Tic. Ltd. Şti.

NAILS

Strong Grip, Practical Use

Manufactured from high-quality steel, our nails provide a strong grip thanks to their sharp point and high strength. They allow easy application in wood and other construction materials. They are a reliable solution for construction and industrial applications.

- High Strength
- Sharp Point
- Easy Application
- Reliable Performance

BMS | Demir Çelik İnşaat Sanayi ve Tic. Ltd. Şti.

PVC COATED WIRE

Protective Coating, Long Service Life

PVC coated wire provides superior protection against corrosion and weather conditions. With its flexible structure and durable coating, it offers long-lasting performance in fencing, tying and industrial applications.

- PVC Coating
- Corrosion Resistant
- Flexible Structure
- Long-Lasting

BMS | Demir Çelik İnşaat Sanayi ve Tic. Ltd. Şti.

PANEL FENCE

Secure Boundaries, Strong Protection

With its durable structure, it offers long-lasting use. It provides high resistance against corrosion. With its aesthetic appearance, it adds a stylish touch to its surroundings. Thanks to its easy installation, it offers practical and cost-effective solutions.

- Secure
- Corrosion Resistant
- Easy Installation
- Long-Lasting

BMS | Demir Çelik İnşaat Sanayi ve Tic. Ltd. Şti.

PRIVACY / SHUTTER FENCE

Flexible Structure, Strong Performance

Its modern shutter-style design provides maximum privacy. With its durable structure, it delivers strong performance against harsh weather conditions while adding a stylish and modern touch to living spaces.

- Modern Appearance
- Protects Privacy
- Durable Structure
- Long-Lasting

Contact Information

BMS | Demir Çelik İnşaat Sanayi ve Tic. Ltd. Şti.

ARTIFICIAL GRASS FENCE

Flexible Structure, Strong Performance

Its dense structure provides maximum privacy. With its UV-protected surface, it is resistant to colour fading. Its easy installation offers practical use in different applications. It is ideal for gardens, residential areas, sports facilities and industrial spaces.

- Provides Privacy
- UV Protection
- Easy Installation
- Easy Installation

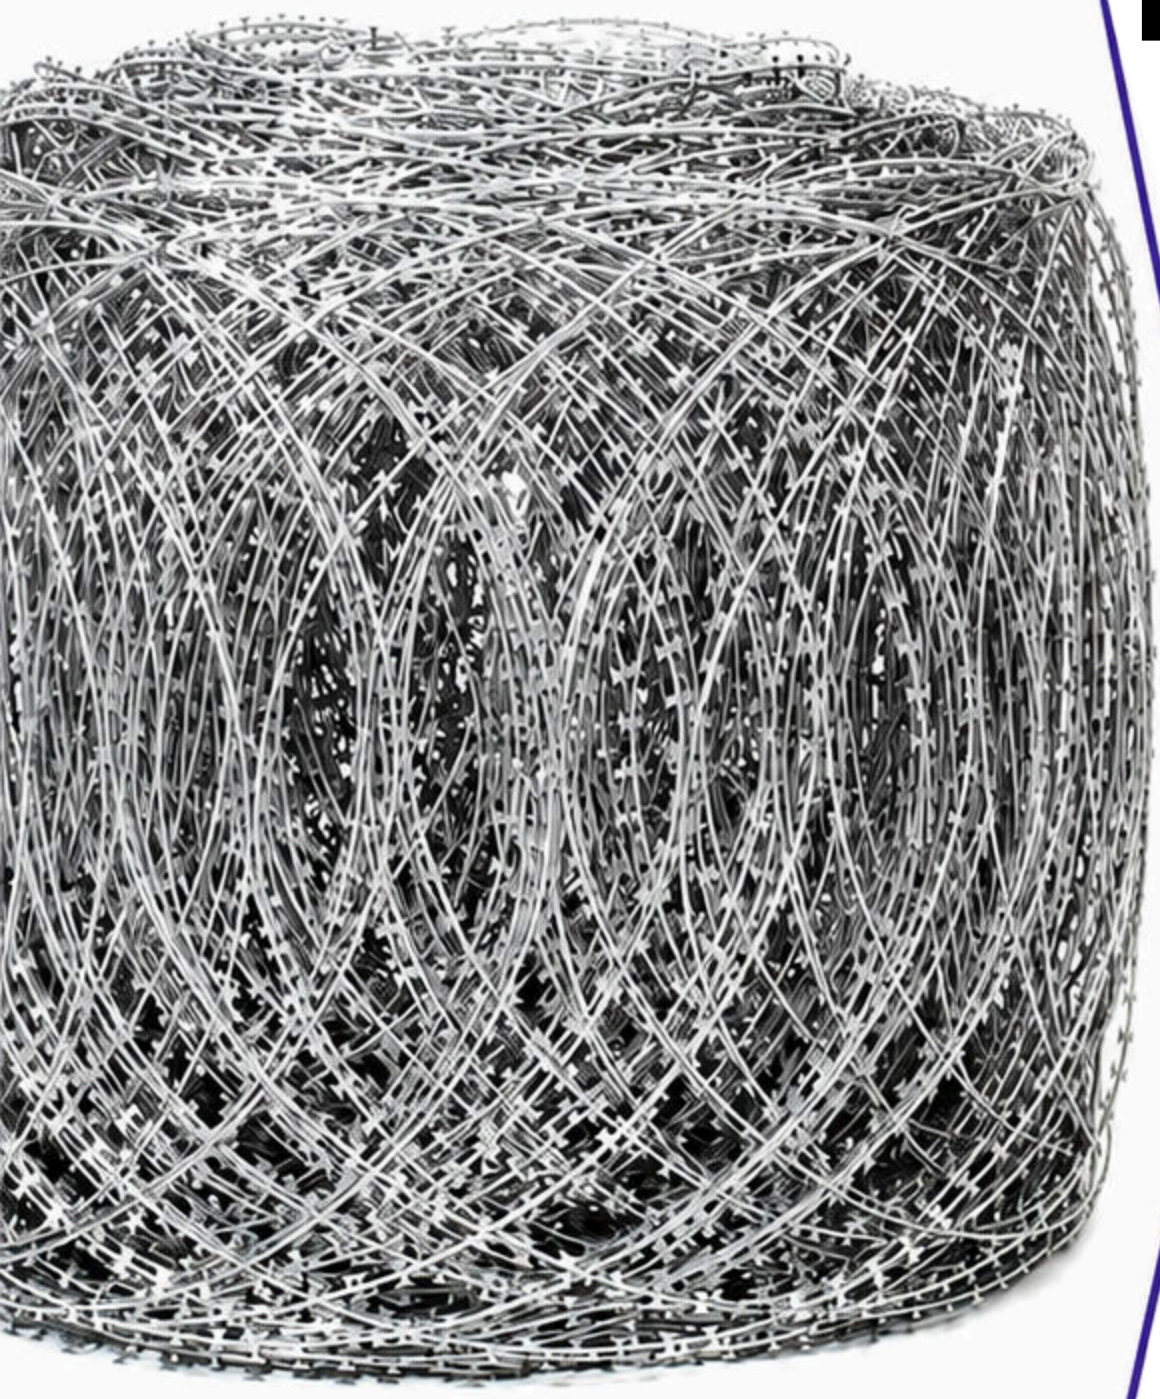
BMS | Demir Çelik İnşaat Sanayi ve Tic. Ltd. Şti.

RAZOR WIRE



High-Level Security, Maximum Protection

Its sharp and durable structure effectively prevents unauthorised access. Thanks to its galvanised coating, it provides superior resistance to corrosion. Its long service life and strong structure deliver a high level of security.

- Security
- Durability
- Deterrence
- Long-Lasting

BMS | Demir Çelik İnşaat Sanayi ve Tic. Ltd. Şti.

BARBED WIRE

Secure Solution, Lasting Protection

Its sharp barbed structure provides effective security. It is manufactured from high-strength steel. With its corrosion-resistant coating, it offers a long service life. Its easy application ensures fast and practical use.

- High Security
- Corrosion Resistant
- High Strength
- Long-Lasting

Contact Information

Tel: +90 312 437 44 22

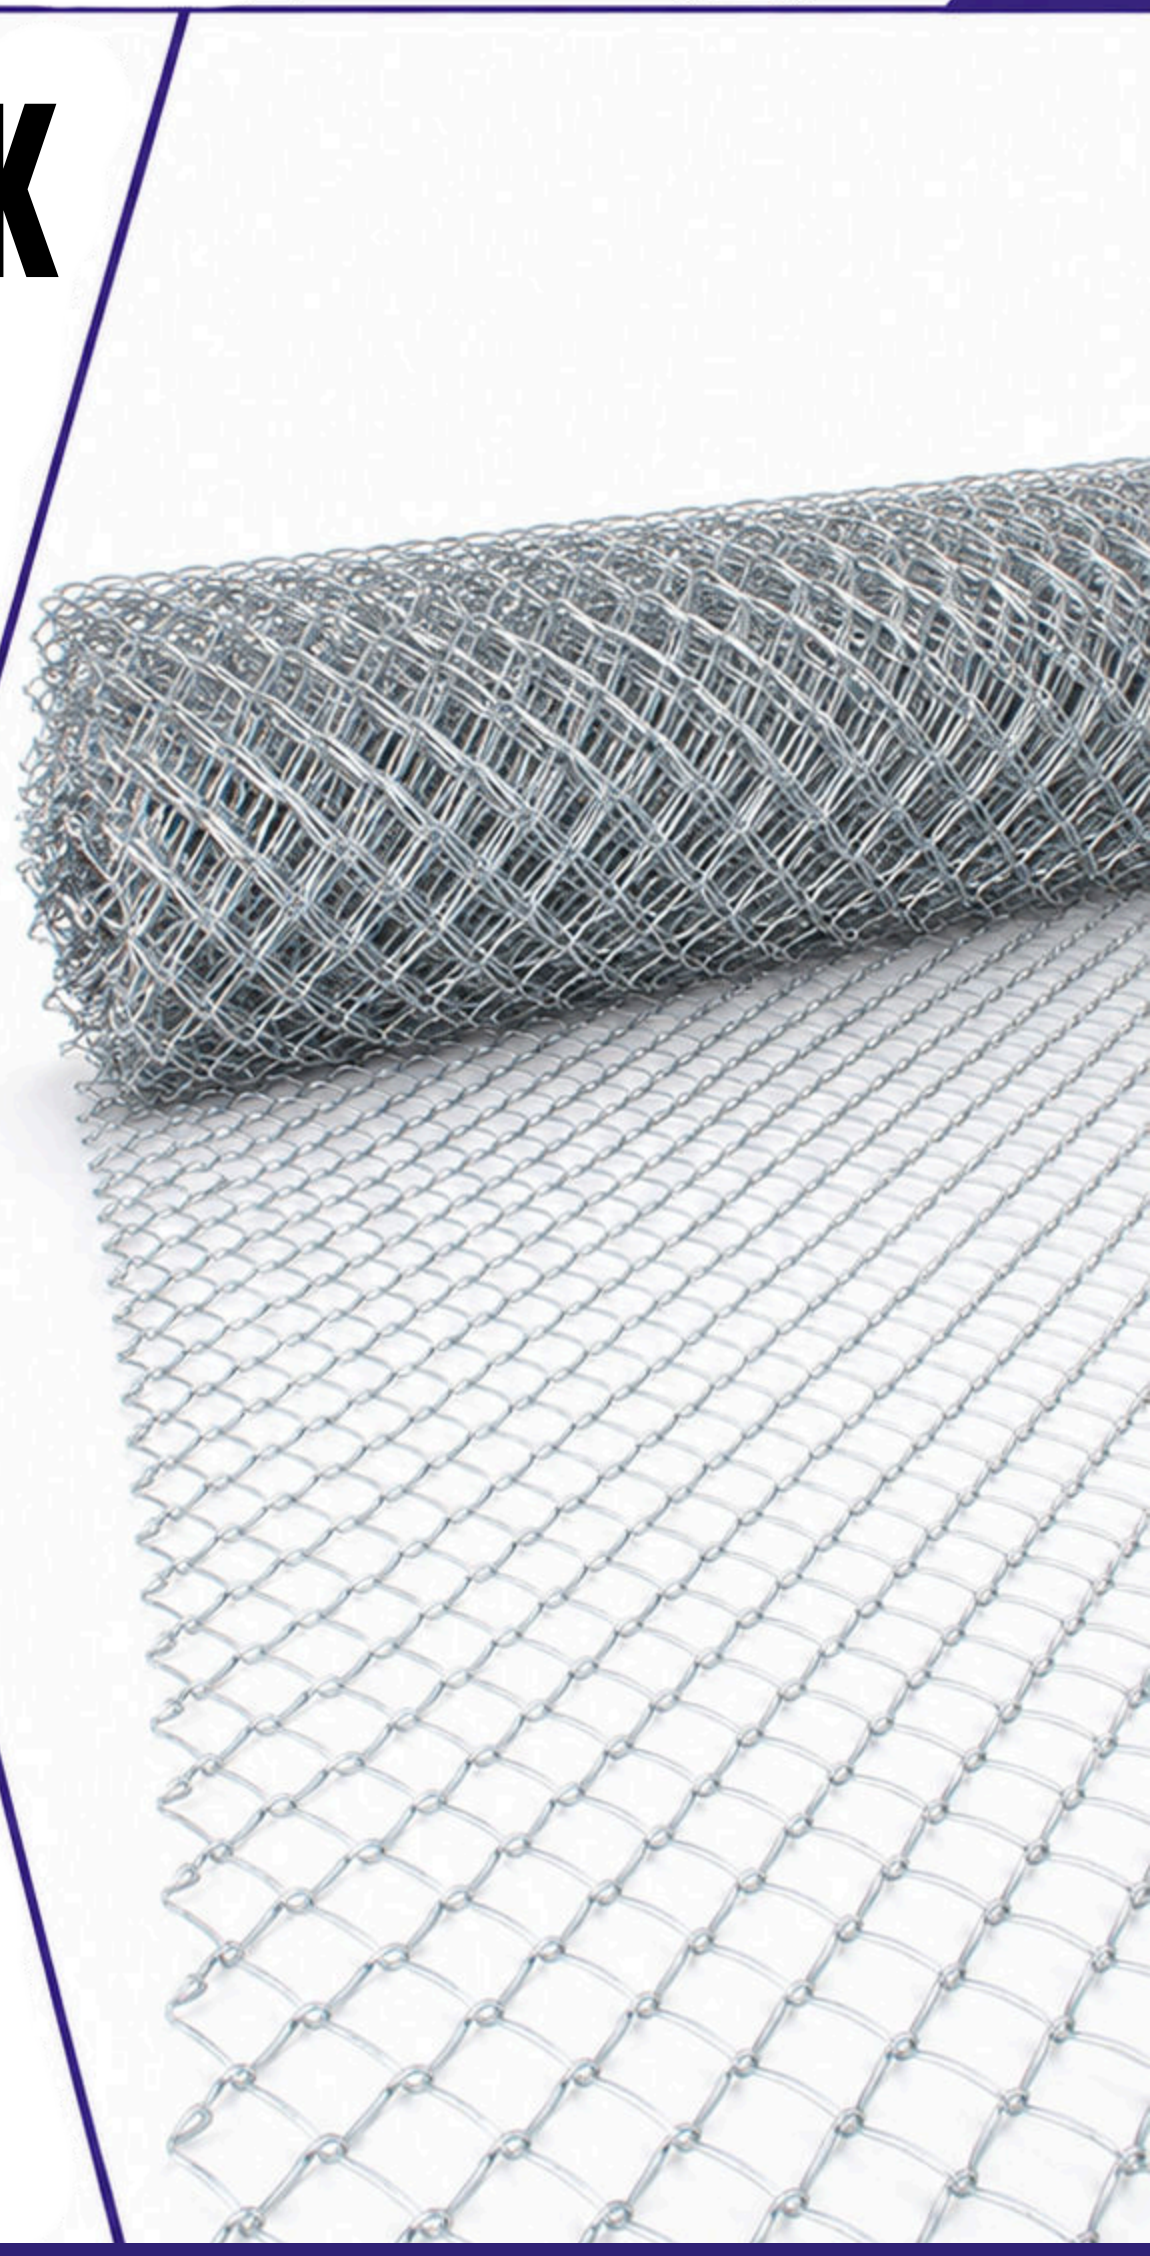
BMS | Demir Çelik İnşaat Sanayi ve Tic. Ltd. Şti.

CHAIN LINK FENCE

Strong Structure, Secure Solutions

Manufactured from high-strength steel, it offers excellent resistance to corrosion. Its flexible structure allows for easy installation. It provides secure and long-lasting use.

- Corrosion Resistant
- Flexible Structure
- Reliable Performance
- Long-Lasting



Contact Information

Tel: +90 312 437 44 22

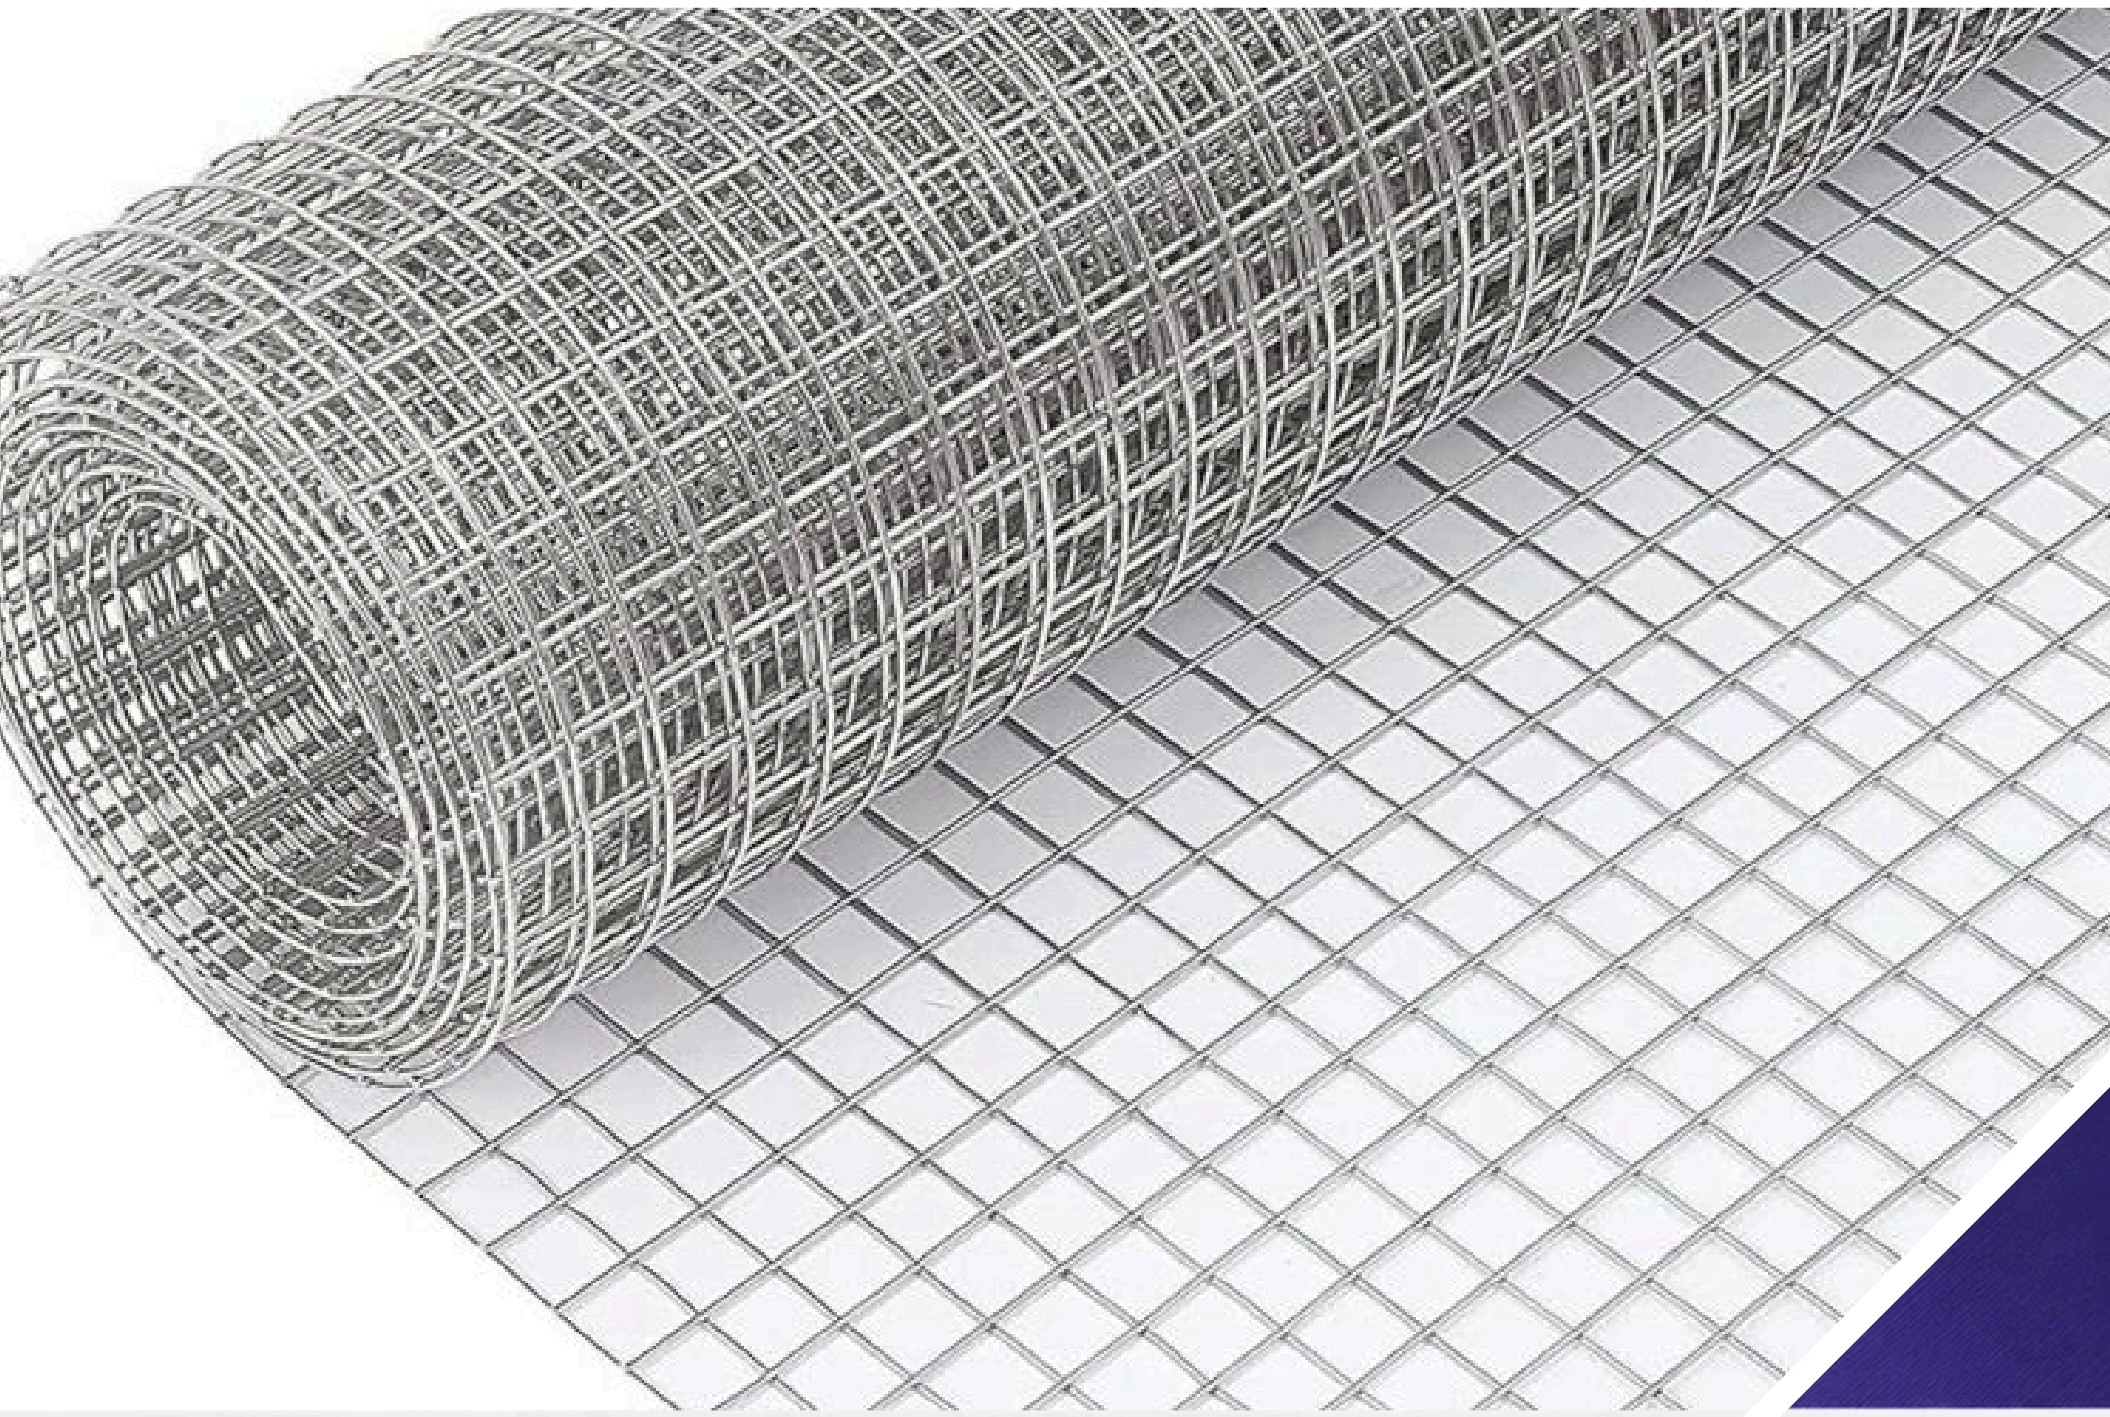
BMS | Demir Çelik İnşaat Sanayi ve Tic. Ltd. Şti.

GALVANIZED WELDED WIRE MESH (ROLL / SHEET)



Strong Connection, Long Service Life

Its welded structure provides high strength and easy application. With its galvanized coating, it offers corrosion resistance, long service life, and versatile use.

- Strong Structure
- Uniform Mesh Spacing
- Corrosion Resistance
- Versatile Use

Contact Information

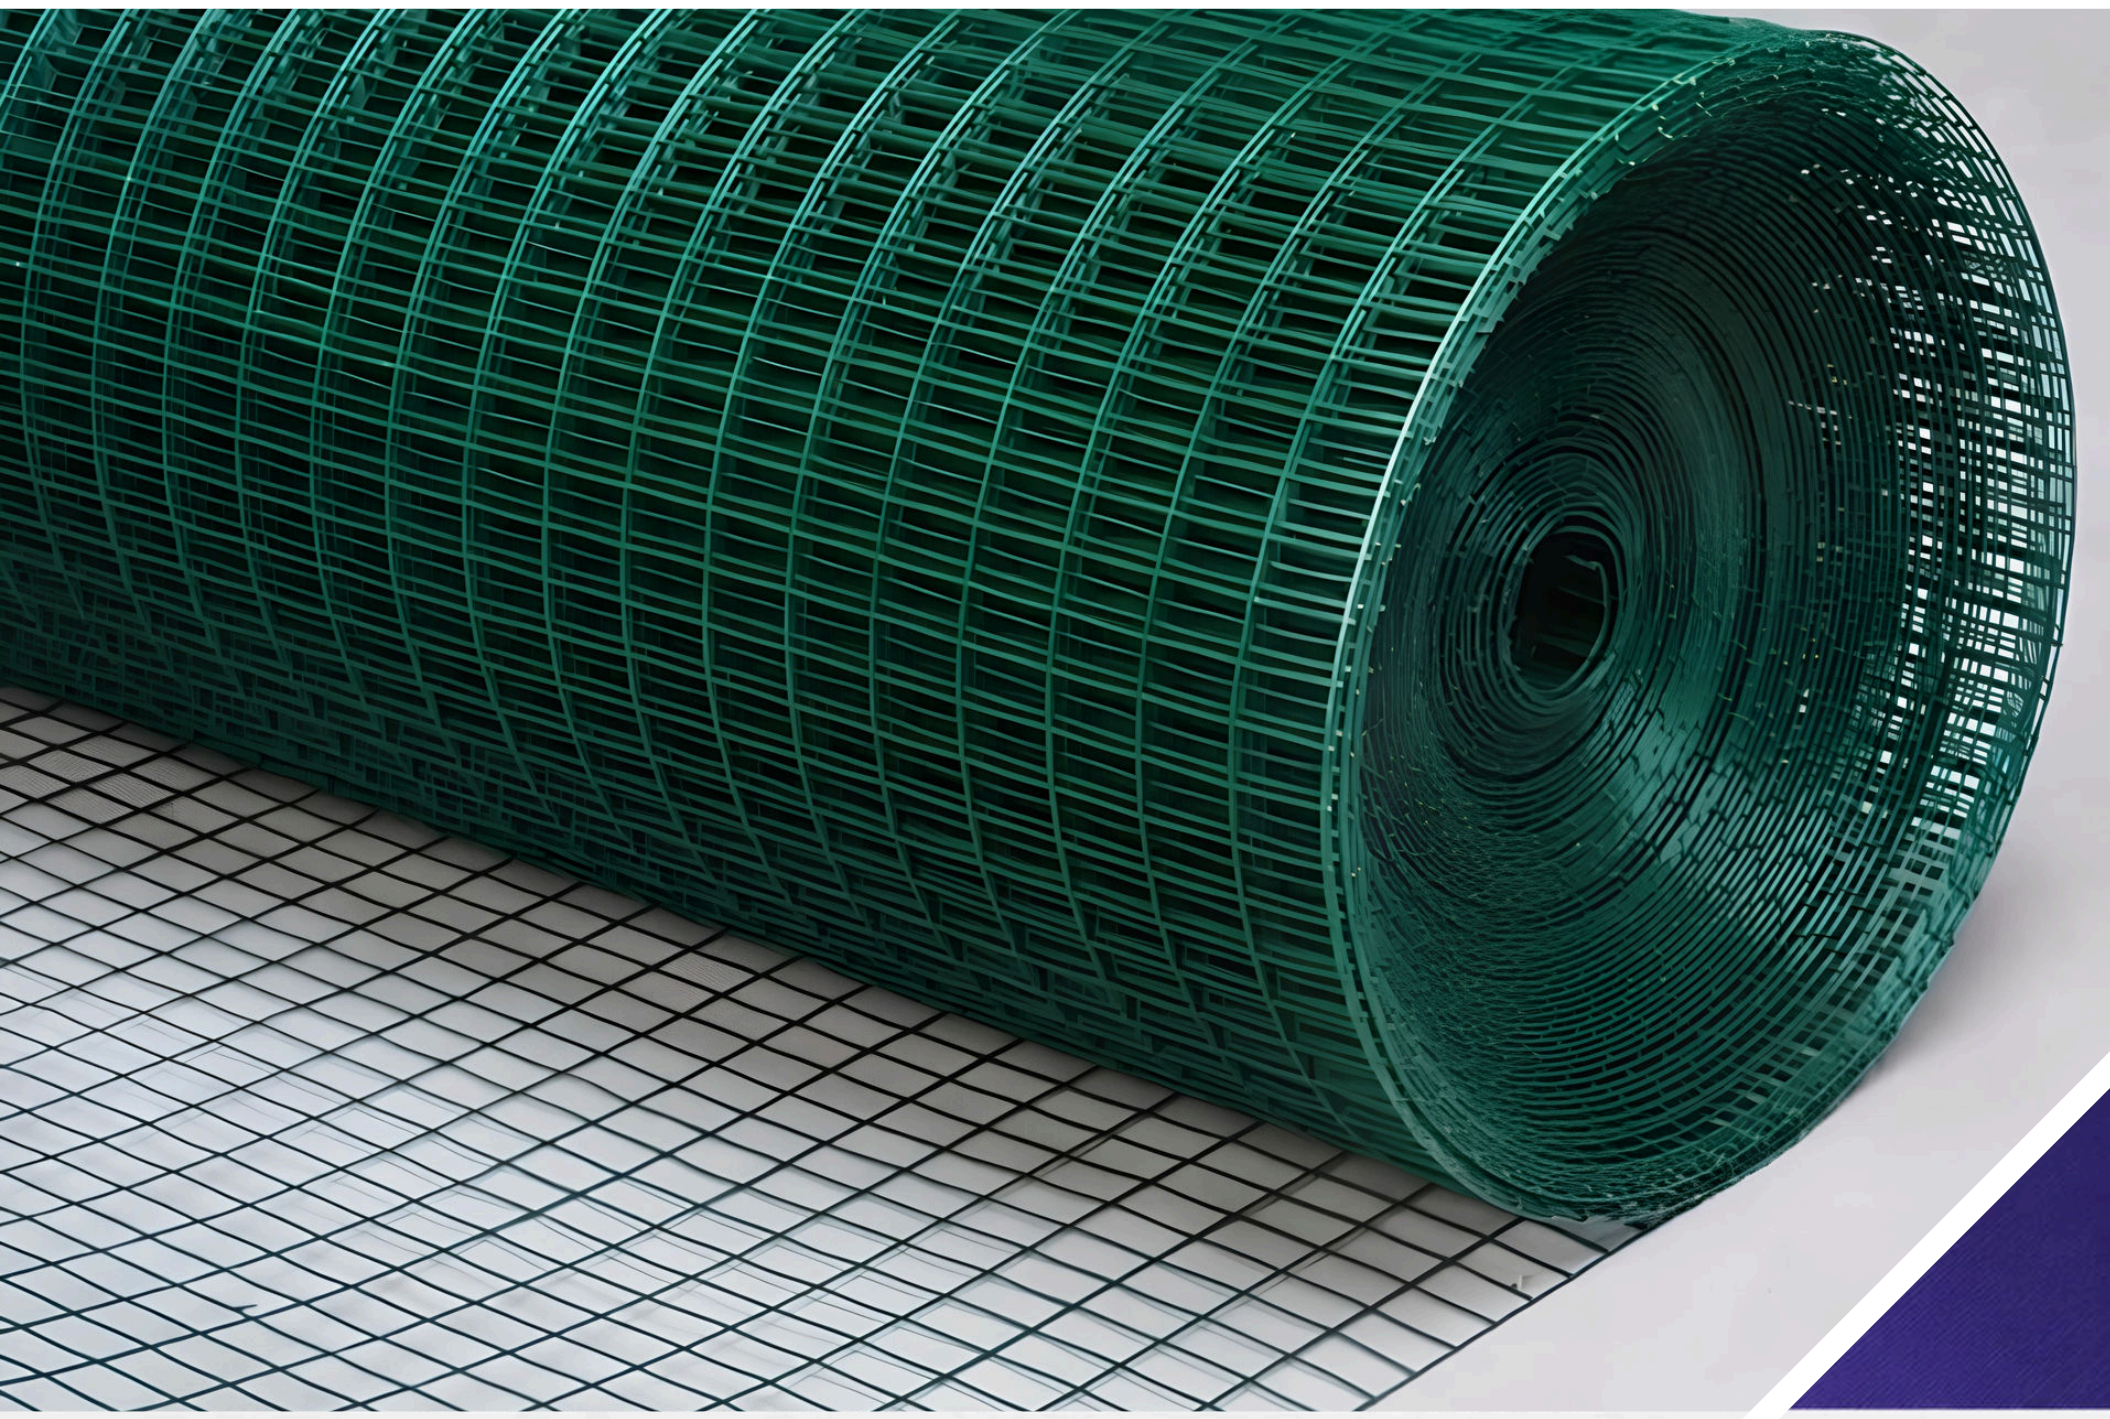
BMS | Demir Çelik İnşaat Sanayi ve Tic. Ltd. Şti.

PVC-COATED WELDED WIRE MESH (ROLL / SHEET)



Strong Structure, Reliable Solution

Its PVC coating provides superior protection against corrosion. Its welded structure offers high strength. With its aesthetic appearance and long service life, it is suitable for a wide range of applications.

- High Strength
- Uniform Welded Structure
- Corrosion Resistance
- Long-Lasting

PVC RAW MATERIAL

Strong Solutions, Built on Quality

Made from high-purity PVC raw materials, it delivers stable colour, strong structure and long-lasting performance. It provides reliable and sustainable solutions ideal for artificial grass fence production.

- Raw Material Quality
- Flexible Structure
- Durable Formula
- Production Compatibility

BMS | Demir Çelik İnşaat Sanayi ve Tic. Ltd. Şti.

REBAR

Strong Load-Bearing Capacity, Maximum Strength

Its high-strength structure provides solid and reliable solutions. It ensures safe use in reinforced concrete projects. Thanks to its durable structure, it delivers long-lasting performance and is a reliable choice for construction applications.

- High Strength
- Safe Use
- Durable Structure
- Long Service Life

OILED BALING WIRE

Flexible, Durable, Easy to Use

Manufactured from high-quality low-carbon steel, our oiled baling wire provides reliable tying solutions with its flexible and durable structure. Its protective oil coating offers additional resistance against corrosion and ensures long-lasting use.

- High Strength
- Oil Coating / Corrosion Protection
- Flexible Structure / Easy Tying
- Long-Lasting / Cost-Effective Solution
